# About Researched Elements

Researched Elements is a natural supplement and nutrition organization dedicated to providing top-quality, science-backed, gluten-free, vegetarian, non-GMO products designed to taste well and aimed at enhancing overall well-being for all ages. Our products are formulated by physicians and manufactured in the USA at an FDA-registered facility with cGMP quality standards. With a steadfast commitment to ongoing research and innovation, we meticulously curate our products to include a diverse range of supplements derived from natural sources. Researched Elements prioritizes the use of evidence-based ingredients, ensuring our formulations are effective and safe for consumers. We embrace transparency and consistently engage in rigorous testing and research, aiming to deliver products that meet the highest standards of quality and efficacy. Our dedication to customer satisfaction and emphasis on scientific validation make us a trusted choice for those seeking reliable and effective natural supplements.

Dr. Christian Bogner and Alex Zaharakis, two parents of special needs children, have been collaborating for several years to connect the dots, generate solutions, and develop strategies to bring improvements to those suffering from health issues, with an emphasis on Autism Spectrum Disorder and Special Needs individuals. It has always been our goal to provide the safest, cleanest, broadest, and most encompassing products to serve the needs of those affected by these health issues. Our formulations are the result of shared collaboration and determination to provide feasible and practical solutions to support the issues of dysbiosis, metabolic dysfunction, neurotransmitter imbalances, histamine reactions and reactivity, oxalate / ammonia overload, and other common modes of dysfunction. Our mission is not only to provide quality and effective products, but we want to leverage the success of our company to push other ideas and solutions forward to help these individuals regain their health and lives.

# DR. CHRISTIAN BOGNER, MD, CFMNP, FACOG

supportive treatments, integrating cutting-edge science with compassionate care. He has consulted with over a thousand families, providing invaluable support and guidance on their

healthcare journeys.

Dr. Bogner's research interests span a wide spectrum, from genetic polymorphisms to motor neuron pathology. He is particularly intrigued by the potential of plant medicine, cannabinoids, and effective nutraceuticals in promoting holistic wellness.

Since joining forces with Alex Zaharakis' boundless empathy and an insatiable thirst for knowledge, Dr. Bogner is steadfast in his belief that achieving optimal health hinges on education, a committed support network, and the unwavering resolve to persevere.

Dr. Christian Bogner is a dedicated father, seasoned clinician, and passionate advocate for autism research and holistic healthcare. Born in Germany, Dr. Bogner's journey into functional medicine was deeply influenced by his eldest child's autism diagnosis. Motivated by personal experience, he embarked on a mission to unravel the mysteries of autism spectrum disorder (ASD) and explore innovative support protocols.

With over a decade of experience, Dr. Bogner is not only a respected clinician but also a distinguished lecturer, sharing his expertise with parents, patients and aspiring healthcare professionals. His commitment to continuous learning led him to become a certified functional medicine physician to complement his additional board certification in obstetrics and gynecology.

Dr. Bogner holds a plant-based nutrition certification from Cornell University, reflecting his belief in the healing power of phytonutrients. His fascination with the intricate interplay between genetics, the myco- and microbiome as well as the environment has fueled his exploration into groundbreaking research areas. As a clinical consultant for MaxGen Labs, Dr. Bogner is at the forefront of pioneering

# ALEX ZAHARAKIS MA, MS, DABR

Alex Zaharakis is a grateful husband and father of 2 beautiful children. His interest in the microbiome and biomedical healing is driven by his son's regressive autism at 17 months, after a culmination and spark of several timely medical insults several of which were microbiome-focused. Alex has devoted his spare time and efforts to researching and learning about the microbiome while helping other parents navigate the biomedical and microbiome issues experienced in autism to develop strategies for intervention.

Alex is a licensed and board certified Medical Physicist in Radiation Oncology, a scientist with a background in physics, mathematics and biology, who has utilized his life experiences to develop an analytical method for quantifying and intervening with intestinal dysbiosis which he believes to be significant in the development and severity of autism and other disease states.

He has devoted his personal time to studying the microbiome through analysis of 16s type sequencing, in particular how it presents in autism relative to symptoms and severity. He has developed software to analyze raw 16s data and provide suggestions to improve dysbiosis in a targeted manner. This method, termed Gut Balancing, has had over 150 direct participants with autism with many hundreds more through trained practitioners who participate and receive analysis based on raw data and statistics from 16s microbiome sequencing. He is currently pursuing his Functional Medicine Degree from the American Academy of Functional Health. He is an active practitioner through Biomesight, a 16s microbiome testing service, and provides free analysis 16s for children with special needs.

Alex feels that providing support for dysbiosis is a direct window into increasing the quality of life for all individuals, including his own son. This has been the driving force in his work.

# Our Manufacturer, All-In Nutritionals

**ALL-IN'S cGMP, FDA-REGISTERED MANUFACTURING FACILITIES, LOCATED IN THE COUNTRYSIDE OF SPRINGFIELD, OHIO, ARE SOME OF THE MOST PRISTINE, UNIQUE, COMPLIANT AND OUTSTANDING FACILITIES STATE AND EVEN NATIONWIDE.**

- We ozonate and purify our air daily, inside all facilities.
- We sanitize all equipment, surfaces, and machinery and test for microbiological contamination before use.
- We never use harsh or abrasive chemicals to clean; only natural, antibacterial and antiseptic cleaners.
- We are a small batch manufacturer, meaning each batch of products receives the ULTIMATE and UTMOST care and attention and we never store raw materials for long periods of time.
- We use high-tech, reliable NIR laboratory equipment to test the identity of all raw ingredients, ensuring quality and consistency.
- We have over 300 SOPs (Standard Operating Procedures) in place.
- Our Manufacturing facilities are FDA Registered and Certified Good Manufacturing (cGMP) through NSF.

## SUPERIOR SUPPLEMENT MANUFACTURING

*The leading provider of all-natural, pure, clinically studied supplements & advanced wellness solutions.*

We're raising the bar for the natural, supplementation industries here, at All-In Nutritionals, and wouldn't have it any other way.

# ALL-IN'S COMMITMENT TO QUALITY

*“We take immense pride in delivering supplements of the highest quality to our customers.” - Lindsey Duncan*

## HERE'S WHY YOU CAN TRUST OUR PRODUCTS:

### 1. cGMP, FDA-Registered Facility:

Our supplements are produced in an FDA-registered, cGMP facility, adhering to the most stringent standards of manufacturing. This ensures that each product undergoes rigorous quality control measures.

### 2. Carefully Sourced Ingredients:

Every single ingredient in our supplements is sourced with meticulous care. We prioritize quality, purity, and potency, selecting only the finest components to craft our formulations.

**3. No Irradiation:** Our commitment to delivering wholesome products means we do not use irradiation in the production process. This ensures that the nutritional integrity of our supplements remains intact.

**4. No Unwanted Additives:** Our formulations are free from a multitude of unwanted additives, including but not limited to maltodextrin, di-calcium phosphates, microcrystalline cellulose, croscarmellose sodium, shellac, silicon dioxide, dyes, fillers, flow agents, and MSG.

**5. No Low-Potencies:** We guarantee that our supplements contain the promised potency of each ingredient, providing you with the maximum benefits and efficacy.

**6. No Fumigation:** Our commitment to purity extends to our production practices, and fumigation is not utilized in the handling of our products.

We prioritize transparency and integrity in every step of our manufacturing process. When you choose our supplements, you can trust that you're investing in products that meet the highest standards of quality and purity. Your well-being is our top priority. Please contact us for more information.

At our core, we're dedicated to crafting unparalleled wellness supplements. We meticulously select the finest, fair-trade raw materials from global sources, subjecting them to rigorous testing for purity and effectiveness. Our small-batch production ensures freshness and quality, while our commitment to regulatory compliance guarantees safety. With advanced sanitation protocols and cutting-edge technology, we prioritize quality at every step, conducting thorough inspections and testing to exceed industry standards. Our transparent approach, from ingredient sourcing to manufacturing processes, ensures the utmost integrity and trust in every product we deliver.

## OUR PRODUCT LINE-UP; AN OVERVIEW

### **GUTGUARDIAN™**

Carefully researched supplement for dysbiosis, combining 52 clinically studied ingredients, from prebiotic fibers to L-glutamine, aimed at supporting gut health and overall well-being.\*

---

### **SPECTRUMMAX™**

Targeted supplement crafted for autism spectrum support and overall well-being, harnesses 65 clinically studied ingredients such as Lions Mane and CoQ10, offering nutritional and neurotransmitter support suitable for individuals managing microbial dysbiosis.\*

---

### **MOTILITYMAX™**

Meticulously crafted supplement, blends 21 beneficial ingredients including Probiotics, Prune, and Cascara Sagrada to support digestive health and motility, promoting a balanced gastrointestinal system for optimal comfort and well-being.\*

---

### **PREBIOTIC REPAIR™**

Prebiotic Repair™ complements GutGuardian™ by restoring beneficial gut flora through a blend of prebiotic fibers and herbs, including GOS, Acacia, and Sun Fiber, to support bifidobacteria, butyrate-producing commensals, and overall gut health and regularity.\*

---

### **HISTAMINE REPRIEVE™**

Histamine Reprive™ is a targeted blend of potent herbs and compounds designed to support histamine-related reactions and reactivity, offering relief from mast cell spikes and microbiome-related sensitivities, allowing continuity in health protocols.\*

\*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

# OUR PRODUCT LINE-UP; AN OVERVIEW

## **OXALATE RELIEF™**

Oxalate Relief™ aids in binding and processing oxalate burden linked to fungal dysbiosis, ensuring smoother progress in health protocols by supporting the body's ability to manage oxalates.\*

---

## **AMMONIA AWAY™**

Ammonia Away™ supports the body in processing ammonia surges from dysbiosis, aiding the liver and urea/nitric oxide cycles to maintain balance and support overall health protocols.\*

---

## **REDS & PURPLES™**

This dynamic blend of Red and Purple Polyphenols promotes mucosal support, goblet cell stimulation, and bowel integrity, reinforcing the first line of defense against intestinal permeability for improved digestive and gastrointestinal wellness.\*

---

## **COLOSTRUM FUSION™**

Unlock optimal gut health with a potent blend of Colostrum, Prebiotics, and L-Glutamine in a synergy designed to support GI wellness, intestinal barriers, and bowel integrity effortlessly.\*

---

## **THIOGUARD LOTION™**

Experience the luxurious Thioguard Lotion™, crafted to recycle Oxidized Glutathione, reflecting our commitment to community empowerment and well-being through exhaustive research and unparalleled expertise.\*

\*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

# FAQ

## Questions about our products?

---

### **Q) CAN I MIX THE SUPPLEMENTS TOGETHER?**

Yes, you can mix our supplements with each other. With regard to probiotics, it would be best to keep those away from direct mixing of other supplements unless they are prebiotics like Prebiotic Repair™.

### **Q) WHAT CAN I MIX THE SUPPLEMENTS WITH?**

Water, Juices, Yogurts, dairy or non-dairy, it is not recommended to heat them, bake with them, or mix with HOT beverages.

Customers say our supplements will mix well in a dairy or non dairy yogurt... add some raspberries or fruit for additional flavoring.

### **Q) ARE YOUR PRODUCTS TESTED FOR HEAVY METALS?**

Yes, we have tested all our Supplements and our Thioguard™ lotion for heavy metals, and they were found to meet (better than) the standards set by the following agencies:

FDA (Standard is for Women)

US Pharmacopeia

U.S. Environmental Protection Agency

### **Q) DO YOUR PRODUCTS FOLLOW GOOD MANUFACTURING PROCESSES AND STANDARDS? ARE YOUR PRODUCTS THIRD-PARTY TESTED?**

Yes, please read a blurb from our Manufacturer on our products and their process, please watch two informational videos from them on our website ([www.researchedelements.com](http://www.researchedelements.com)). Yes, we have third-party tested our products with different labs (supplements and lotion.) Please see previous question.

# ARE THERE ADDED SUGARS IN YOUR SUPPLEMENTS?

---

No, there are no non-naturally occurring added sugars in our products. In some products, we use coconut sugar nectar in very small amounts. The total sugars in any of these formulas are going to be trivial from the natural ingredients. If you added it all up down to the decimals, there wouldn't even be 1 gram of naturally occurring sugars. Our products also contain more fiber than sugar. This is called a "net zero" as you can subtract natural sugars from fiber to get your net sugars. As for "added sugars", Reb M is a zero-sugar product made by fermenting sugar cane and extracting the Reb M compound, so again no sugar, but it imparts a nice sweet taste. Also remember that a lot of companies get sugar from their natural flavors being on a base of maltodextrin, ours are on acacia so 0 sugar there. The only ingredient that would add sugar content would be our coconut sugar/nectar, and it would take 1,000mg of coconut sugar to equal 1 gram of sugar content. We are not anywhere close to even half of a gram on any of our products.

# ARE THERE ADDED SUGARS IN YOUR SUPPLEMENTS?

---

FDA regulation says that anything under 0.5 grams must be rounded down to 0 sugars, but you are allowed to put an asterisk on coconut sugar and say \*adds a trivial amount of sugar. This only applies, however, to nutrition facts labels and not supplement facts.

- The newest version of GutGuardian™ has no coconut sugar.
- MotilityMax™ has 0.13 mg total sugar content (again, way more fiber than sugar in this).
- SpectrumMax™ has 0.3 grams of sugar content, rounded down to 0 net added.
- Prebiotic Repair™ has 0.2 grams of sugar content, rounded down to 0 net added.
- Histamine Reprieve™ capsules have 0 sugar content. Histamine Reprieve™ powder has 0.16 grams of sugar content, rounded down to 0 net added.
- Oxalate Relief™ has 0 sugar content.
- Ammonia Away™ has 0.1 grams of sugar, 0 net added.

If you take every single one of our products in a day, you wouldn't even get 1 gram of total sugar (0.89g), but you would get LOADS of fiber, phytochemicals and nutrients to negate this trivial amount of sugar. Pretty impressive.

*"Evidence has proven that, unfortunately, far too many "natural products" and "natural supplements" are contaminated with heavy metals, toxins, bacteria, pesticides, dioxins, PCBs, and other unhealthy and unwanted ingredients. Heavy metals may induce a variety of pathologies damaging our health. They may also react directly with DNA, inducing a variety of DNA lesions including both DNA strand damage and DNA protein cross-linkage. One study consisting of a large scale of herbal medicine samples showed that **over 30% of samples were over the acceptable limit of heavy metals.**"*

*- Lindsey Duncan*

**We are proud to share that all Researched Elements' products are tested for heavy metals, toxins, microbiological contamination, bacteria, and more.**

# ADDITIONAL INFORMATION ABOUT OUR FLAVORING PROCESS

Gum Acacia is hands down the BEST base and carrier that exists and there is no comparison with what almost 100% of all other “natural flavor” ingredient suppliers are using which is maltodextrin! Comparing Gum Acacia to maltodextrin would be like comparing the ancient and famous, healing Indian dish, Kichari, to a Big Mac. Recently the FDA has determined that there is enough scientific evidence to confirm that Gum Acacia can reduce blood glucose levels and insulin levels.

There is absolutely no MSG or any other neuro stimulant or neuro toxin in our natural flavors. Also, they contain zero sugars and zero carbohydrates.

The raw materials used in our flavoring systems are 100% from what is called “aromatic compounds”. This comes from the distillation of the natural fruits that we use. We take oils and compounds and conduct a process called “folding” which basically means they are doubled and then doubled again and again and again. We can get 10X or 20X which creates the amazing strong and natural smell, flavor, and taste. We are concentrating MOTHER NATURE!

To ensure our flavoring ingredients are clean, pure, and meet consumer expectations our supplier is audited every year by SGS. This firm follows strict guidelines to protect our brand by minimizing risks in our supply chain with its global compliance, training, testing, inspections, auditing, and certification services. Our flavor supplier maintains a HACCP certification. This is to certify that our flavors are clean, pure and do not contain any compounds that have a potential to cause harm to consumers. HACCP stands for Hazard Analysis and Critical Control Point.

# ADDITIONAL INFORMATION ABOUT OUR FLAVORING PROCESS

Our Gum Acacia is hand-picked in the Sudan region in North East Africa and is non-GMO. The only thing that our supplier adds to our Gum Acacia is natural tocopherol as an antioxidant to keep our Gum Acacia free from oxidation and free radicals and so it remains as fresh as possible.

100% of EVERY batch of our flavorings come with a Certificate of Analysis and is proven to be free of all microbiological contamination including but not limited to being free of yeast, mold, Enterobacteriaceae, E. Coli, Salmonella and more.

100% of all ingredients used in our flavorings are approved for use in regulations of the FDA or are listed as GRASS (generally recognized as safe).

*While our products do not include tree nuts as primary ingredients and are not manufactured in facilities where nuts are processed, we strongly advise individuals with true anaphylactic NUT allergies to refrain from consuming these supplements. This caution is due to the heightened reactivity of these individuals to microbiome shifts, even if the products themselves do not directly contain nuts. Ensuring the safety and well-being of our customers remains our utmost priority. GutGuardian™ contains Walnut Hull (not walnut) @ 1% and may contain trace walnut at lower concentrations. Walnut Hull is not the NUT and it does not touch the NUT because the hard shell stands between the black walnut and the hull, however if you have true NUT allergies please do not use GutGuardian™. Thank you!*

# OUR UNIQUE LINE OF PRODUCTS

***Unlock Nature's Potential:*** Discover Our Range of Premium Natural Supplements

# GUTGUARDIAN™

*Powder*

***Introducing GutGuardian™, a specialized supplement thoughtfully crafted for individuals with dysbiosis. This innovative formula is backed by extensive research and blends 52 distinct, clinically studied plants, herbs, and compounds. From prebiotic fibers to codonopsis, brahmi leaves, L-glutamine, and beyond, every ingredient is carefully selected to provide exceptional efficacy and potency. OUR UNIQUE LINE OF PRODUCTS

# MotilityMax™

Available in Powder and Veggie Capsules form

**MotilityMax™ is an exceptional supplement meticulously designed to support digestive health and motility. This specialized formula combines the goodness of 21 carefully chosen plants, herbs, and compounds, including the beneficial addition of 30 Billion CFUs of Probiotics, Prune, and Cascara Sagrada. These elements work synergistically to aid digestion and promote a balanced gastrointestinal system, offering individuals the support they need for optimal comfort and overall well-being. \***

## HOW TO USE

- Take with or without food. Start with 1 scoop daily, as needed, and slowly work up to recommended dosage or as recommended by your qualified healthcare provider.
- Children: 1-3 scoops daily.
- Adults: 2-4 scoops daily.

**Note:** Do not exceed 4 scoops (2 servings) in a single administration. We recommend you discuss with your primary healthcare practitioner before using MotilityMax™ if your child is 3 years of age or under. MotilityMax™ is recommended to be taken with or without food, any time of the day.

\*These statements have not been evaluated by the Food and Drug Administration.

This product is not intended to diagnose, treat, cure or prevent any disease.

## INGREDIENTS

Vitamin C (as Ascorbic Acid)  
 Vitamin B6 (as Pyridoxine Hydrochloride)  
 Magnesium (from Magnesium Hydroxide)  
 Organic Fennel Seed (Foeniculum Vulgare)  
 Organic Partially Hydrolyzed Guar Gum (Sunfiber®)  
 L-Carnitine  
 Prune (Prunus Domestica)  
 Organic Flaxseed (Linum Usitatissimum)  
 Chamomile (Matricaria Chamomilla)  
 Bifidobacterium Lactis (30 Billion CFUs)

**Proprietary Blend:** Organic Beet Root (Beta Vulgaris), Cranberry Fruit (Vaccinium Oxyccocos), Organic Ginger Root (Zingiber Officinale), Cascara Sagrada Bark (Frangula Purshiana), Organic Triphala (Emblica Officinalis, Terminalia Bellerica, Terminalia Chebula), Black Radish Root Extract 4:1 (Raphanus Sativus), CoQ10, 5-HTP (Griffonia Simplicifolia Seed Extract), Organic Black Pepper Fruit (Piper Nigrum)

**Other Ingredients:** Coconut Milk, Organic Coconut Sugar, Natural Orange Flavor, Natural Vanilla Flavor, Reb M 95% (as Onosweet™), and Monkfruit.

# PREBIOTIC REPAIR™

***Prebiotic Repair™ is a specific ratio of prebiotic fibers and herbs to restore beneficial flora such as bifidobacteria, lactobacillus and butyrate-producing commensals, it is designed to bolster the effects of GutGuardian™ when needed. Prebiotic Repair™ includes the best-tolerated combination of prebiotics such as GOS and Acacia helping to regulate your gut PH with support for bifidobacterium, Sun Fiber is effective at increasing butyrate-producing commensals, assisting with regularity, and hydrating your bowel movements. For those with deficits of good microbes, prebiotic repair fits the bill in helping support the ecosystem of “good guys” and reshape the microbial balance in your gut to support health and well-being. \****

## HOW TO USE

- Take with or without food. Intended to be taken at least 1 week after GutGuardian™. Intended to boost the prebiotic potential of GutGuardian™ for those who require additional support for bifidobacterium, lactobacillus and commensal bacteria.
- Children 3-5: Discuss with your qualified healthcare provider before taking Prebiotic Repair™. Start with 1/2 scoop daily and increase up to 1 scoop as needed.
- Children >5: Start with 1/2 scoop daily and increase up to 1.5 scoops as needed.
- Adults: Start with 1 scoop daily and increase to 2 scoops as needed.

OUR UNIQUE LINE OF PRODUCTS

# HISTAMINE REPRIEVE™

*Available in Powder and Veggie Capsules form*

**Histamine Reprise™ is a combination of the best herbs and compounds that assist with reaction and reactivity associated with histamine spikes from mast cells, sensitivities, and dysbiosis. Histamine reaction and reactivity is a major contributor to the initiation of any protocol, it is intimately connected to the state of your microbiome. Histamine Reprise™ includes potent flavonoid compounds that support the inhibition of histamine surges and allow you to feasibly continue on any health protocol or intervention. We have created a balanced and complete composition so you don't need to look elsewhere to support your GI-driven histamine intolerance.**

## HOW TO USE

OUR UNIQUE LINE OF PRODUCTS

# OXALATE RELIEF™

*Support*

## HOW TO USE

- Children 3-5: Discuss with your qualified healthcare provider before taking Oxalate Relief™. Start with 1/2 to 1 scoop daily as needed. Discuss with your qualified healthcare provider.
- Children >5: Start with 1 scoop and work up to 1.5 scoops daily as needed.
- Adults: Start with 1 scoop and work up to 2 scoops daily as needed.

***Oxalate Relief™ is a selection of compounds to help bind and process oxalate burden associated with fungal dysbiosis or inability to degrade oxalates. Oxalates can be a major burden to the body's ability to function particularly when fungal overgrowth is present, some individuals also lack certain microbes helpful in degrading oxalates. Oxalate Relief™ is designed to bind and help your body process oxalates so that you can feasibly continue on your health protocol.***

OUR UNIQUE LINE OF PRODUCTS

# AMMONIA AWAY™

Support

***Ammonia Away™ is a grouping of compounds that help the body process ammonia surges from dysbiosis, with broad support for the liver, urea and nitric oxide cycles. The urea and nitric oxide cycles are intimately interconnected and can feed back into each other if overloaded with ammonia or nitrogen compounds. Overload of these cycles often occurs with bacterial and fungal dysbiosis. Ammonia Away™ is designed to support the liver and these critical cycles so that your body can recuperate quickly and allow you to feasibly continue on your health protocol.***

## HOW TO USE

- Children 3–5: Discuss with your qualified healthcare provider before taking Ammonia Away™. Start with 1/2 scoop and work up to 1 scoop daily as needed.
- Children >5: Start with 1 scoop and work up to 1.5 scoops daily as needed.
- Adults: Start with 1 scoop and work up to 2 scoops daily as needed.

OUR UNIQUE LINE OF PRODUCTS

# Thioguard Lotion™

**Glutathione recycling support lotion**  
**Paraben & Phthalate Free**

**Recycle your Oxidized Glutathione and experience the luxurious indulgence of our meticulously crafted, sulfated salt lotion- a result of exhaustive research fueled by an unwavering commitment to empower and uplift our communities. With unparalleled expertise, our Thioguard Lotion™ stands as a promising ally for those seeking to enhance their health and well-being.**

## HOW TO USE

Topical use only. Apply per the dosing regimen evenly or alternate between sides, over kidneys, back of the neck, belly or back along spine - massage vigorously into skin for 15 to 30 seconds. It is normal to see voids, air, or empty spaces in the lotion.

Store the lotion in a cool place (<85 degree environment) and out of direct sunlight. Do not apply the lotion prior to extended sun exposure. Keeping in the refrigerator is an option. It is best to keep the lotion in the refrigerator if it is not intended to be used upon receipt for some time. When stored in the refrigerator it is viable for 6 months+. It can remain stable well beyond 60 days at room temperature, but when exposed to above 90 degrees will lose integrity.

**For Topical Use Only!** Apply a small amount (¼ pump) topically to the skin in an identifiable area - evaluate after 1 to 5 minutes afterwards for any reactions. If there are no discernible reactions proceed with normal use per dosing chart. Note that thiosulphate is not a sulphite, sulphites can cause issues for those with sulfur intolerances please read our statement about sulfur intolerance.

\*These statements have not been evaluated by the Food and Drug Administration.

This product is not intended to diagnose, treat, cure or prevent any disease.

## INGREDIENTS

Water, Glycerin, Caprylic/Capric Triglyceride, Potassium Cetyl Phosphate, Cetearyl Alcohol, Carthamus Tinctorius (Safflower) Seed Oil, Palmitic acid, Stearyl Alcohol, Sodium PCA, Phenoxyethanol, Hydroxide, Tocopherol, Xanthan Gum, Helianthus Annuus (Sunflower) Seed Oil, Sodium Phytate, Caprylyl Glycol, Myristic Acid, Stearic Acid, Sodium Thiosulfate Pentahydrate (ACS), Methylsulfonylmethane (MSM)

**Free of parabens, phthalates, dyes, and fragrance.**

**Note:** Any form of detoxification can stress the microbiome. It is important to support motility and the microbial balance prior to and during use of Thioguard lotion. We have developed microbiome products for this specific purpose. For those with existing motility issues, it is highly recommended to address those before the use of Thioguard lotion (consider Motility Max). For questions please email us at [contact@thiogenics.com](mailto:contact@thiogenics.com) or [contact@researchedelements.com](mailto:contact@researchedelements.com). Always consult your practitioner before use.
